- We need maximum 9 microphones. One Vocal, 3 for the horns, 2 overheads for the drum-set, 1 for the Double bass and 2 for the Piano.
- In smaller venues we only need to amplify the singer
- We need a real piano or upright piano, if it is necessary we can provide an electric keyboard.
- Number of the microphones on drums can be varied depending on possibilities and the acoustic surroundings but we certainly prefer to have two overheads, no extra mike on the bass drum and toms etc.
- If possible, we require 5 music stands.
